Serial No. 09/888,273 Response dated August 7, 2006 Office Action dated April 5, 2006 DO NOT ENTER TLMD 7/3/08

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application.

(Previously Presented) A method of assigning thread priority comprising:
assigning priority to a first thread in a multi threaded processor;
loading a preliminary value to a thread precedence counter;
assigning priority to a second thread in response to expiration of said thread

determining if there is an indication of approaching instruction side starvation for said first thread; and

incrementing a value stored in said first starting counter in response to an indication of approaching instruction side starvation for said first thread.

- 2. (Original) The method of claim 1 wherein said preliminary value is based on a value stored in a first starting counter associated with said first thread.
- 3. (Cancelled)

precedence counter;

4. (Previously presented) The method of claim 2 wherein determining if there is an indication of approaching instruction side starvation for said first thread includes
